tions for appointment to each vacancy from not more than the highest three names available for appointment on the certificate: *Provided*, That the appointing officer need not consider any eligible who has been within his reach in connection with three separate appointments or against whom objections shall be made and sustained for any of the reasons stated in § 18.2 (c). The second and any additional vacancies shall be filled in like manner.

An appointing officer who passes over an eligible granted five- or ten-point preference under this part and tentatively selects a nonpreference eligible, shall file with the Commission his reasons in writing for so doing and the Commission shall determine the sufficiency or insufficiency of such submitted reasons and notify the appointing officer. If the reasons are found sufficient, the nonpreference eligible tentatively selected may be appointed. If the reasons are determined insufficient and the appointing officer still intends to appoint the nonpreference eligible, he must submit either more detailed information concerning his reasons for passing over the preference eligible or a statement that he has no more information in support of his selection. The nonpreference eligible tentatively selected may not be legally appointed until the appointing officer has received notification from the Commission concerning his second statement.

When a certificate has been issued for filling several vacancies and the appointing officer submits reasons for passing over a preference eligible on such certificate and selecting a nonpreference eligible, he need not await receipt of the Commission's findings as to the sufficiency of such reasons before making appointment to one or more of the remaining positions: *Provided*, That he holds open one of the vacancies for further consideration of the preference eligible in case the reasons for passing him over are found insufficient by the Commission. Where a seniority system of promotion is established by law, such appointment shall be made on a temporary basis until the vacancy held open is filled by indefinite appointment.

A copy of the appointing officer's reasons and the Commission's findings shall, upon request, be sent to the eligible or his designated representative.

If upon certification reasons deemed sufficient by the Commission for passing

over his name shall three times have been given by appointing officers, certification of his name for appointment will thereafter be discontinued prior notice of which shall be sent to the eligible. Any eligible who has been within reach in connection with three separate appointments in his turn, and any preference eligible who has been passed over three times for reasons deemed sufficient by the Commission, may be subsequently selected, subject to the approval of the Commission, from the certificate on which his name last appeared if the condition of the list has not so changed as to place him in other respects beyond reach of certification.

Effective with respect to selections from all certificates dated on and after January 28, 1946.

NOTE: Amendment of paragraph (3) (c) of § 18.1 approved January 2, 1946. Amendment of paragraph (h) of § 18.4 approved December 21, 1945.

PART 301—DOMESTIC QUARANTINE NOTICES

MODIFICATION OF BLACK STEM RUST QUARANTINE AND REGULATIONS

Introductory note. This amendment of the black stem rust quarantine and of Regulation 2 is made to add Kansas to the protected States because of the importance of small-grain production in that State and because of the progress of eradication in that State of non-resistant species of barberries and mahonias.

The Secretary of Agriculture has determined that it is necessary to amend the black stem rust quarantine and the regulations supplemental thereto, as revised effective December 26, 1944, in order to designate the State of Kansas as a protected State within the meaning of the said quarantine and regulations.

The quarantine (7 CFR 1944 Supp. 301.38, B. E. P. Q.—Q. 38) is, therefore, hereby amended by adding Kansas to the protected States listed therein, and Regulation 2 of the regulations supplemental thereto (7 CFR 1944 Supp. 301.38-2) is hereby amended to read as follows:

§ 301.38-2 *Protected States.* The following States are designated as protected: Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, North Dakota, Ohio, Pennsylvania, South Dakota, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

(Sec. 8, Plant Quarantine Act of August 20, 1912, as amended, 37 Stat. 318, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C. 161)

This amendment shall be effective on and after February 1, 1946.

Done at the city of Washington this 16th day of January 1946. Witness my hand and the seal of the United States Department of Agriculture.

Provided, however, That the earnings for the time involved under either subparagraph (1), (2), or (3) of this paragraph (b) shall not be less than the applicable time rate specified in paragraph (a) hereof.

(c) *General provisions.* (1) If the producer and laborer agree upon a wage rate for any class of work higher than that prescribed herein, payment in full of the agreed upon rate must be made to qualify the producer for payment.

(2) The producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him, such as a dwelling, garden plot, pasture lot, and medical services.

(3) The producer shall not, through any subterfuge or device whatsoever, reduce the wage rates to laborers below those determined above.

LIST B—RESTRICTIONS ON SPECIAL SALES FOR EXPORT

Explanation and Scope

§ 944.34 *Priorities Regulation 13—(a) What this regulation does.* This regulation covers special sales, which, in general, are sales of materials or products by persons who acquired or made them for use and not for sale or resale. This is more fully explained in paragraph (b) (1). Special sales may be made freely, except for certain sales of surplus under CPA directions, materials or products on List A (Domestic) or List B (Export), and certain sales as scrap. This is the only CPA regulation on special sales, and a seller who wants to make a special sale need not look at any other CPA regulation or order unless this regulation says he must. However, all buyers must comply with applicable CPA orders on use, inventory, resale, etc., as explained in paragraph (j).

(b) *Definitions.* As used in this regulation:

(1) "Special sale" means a sale of a material or product by any person (including a Government agency) who acquired or made it for use and not for sale or resale. All sales by trustees in bankruptcy, receivers and other kinds of liquidators (in the course of liquidation as distinct from continued operation of a business) are special sales even though neither they nor their beneficiaries bought for use. All sales at public auction by general auctioneers are special sales regardless of the purpose for which the material or product was acquired. All sales of surplus materials or products by Government agencies are special sales. Transfers of materials acquired or made for use, from one plant or operating unit to another which is owned by the same person but which normally buys separately, are special sales.

(2) "Material or product" means any commodity, equipment, accessory, part, assembly or product of any kind in finished, semi-finished or raw material form.

(3) A "used" material or product is one which has been put into actual use.

(4) "Persons buying for use" include, among others, a contractor who buys

with intent to incorporate the material in a building or product for a third person.

(c) *Sales not covered by this regulation.* The following types of sales are not considered special sales and are not governed by this regulation, even though they may involve materials or products acquired or made for use:

(1) A sale of a material or product by a person regularly engaged in the business of selling it. He is governed, however, by all CPA orders and regulations which apply to his business and to the material or product he is selling.

(2) Sales of plant-generated scrap, meaning scrap which is generated in the course of manufacture or is the waste of industrial fabrication. Sales of other kinds of scrap are covered by paragraph (i).

(3) Sales of rationed products which are controlled by another Government Agency.

(4) Sales of foods for humans or animals, medicines, tobacco, oils and fats, petroleum and petroleum products including natural and liquefied petroleum gases.

(5) [Deleted Oct. 1, 1945.]

(6) A sale of an entire business which is transferred as a going concern to a new owner who continues to operate it in the same or substantially the same form.

(7) [Deleted Oct. 1, 1945.]

General Rules for All Special Sales

(d) *Most special sales may be made freely; general rules.* A seller may make a special sale of most materials or products freely to anyone without CPA authorization and without requiring the buyer to apply or extend a preference rating. The only exceptions are certain sales of surplus under CPA directions, special sales of materials or products on List A (domestic sales) and on List B (export), and certain sales as scrap, as explained in paragraphs (d) (4), (g), (h) and (i). In addition, all sellers are subject to the following general rules and conditions:

(1) If the seller knows that a person who wants to buy the material or product will use it for a prohibited purpose or would have more of it than he is permitted to have, the sale may not be made. The buyers' obligations are stated in paragraph (j).

(2) At special sales, preference ratings have no effect either by way of obliging a holder to sell or by way of determining as among several buyers who shall get the material or product. However, this does not excuse a seller from complying with the restrictions on List A or B applying to the items listed.

(3) Even if the buyer gives the seller a preference rating at a special sale, the seller cannot use this rating to replace the material or product he has sold. The effect of this rating stops when the seller receives it.

(4) If the sale relates to surplus Government-owned or Government-involved materials or products (including contractor inventories and sales by owning or disposal agencies), the seller may be subject to regulations of the Surplus

Property Administration. The seller must also comply with any directions on specific materials or products which may be issued by the CPA as part of this regulation or otherwise.

(e) *Use of material acquired with priorities assistance.* This regulation does not change the general rule of § 944.11 of Priorities Regulation 1 that material acquired with priorities assistance must, if possible, be used for the purpose for which the assistance was given. Where such material cannot be used for this purpose, then this regulation applies if a special sale is made.

(f) *Sales through an agent.* Where a person sells through an agent, except at public auction sales, the sale is a special sale only if it would be a special sale if made directly by the principal. If it is a special sale, the restrictions of this regulation apply to the principal and also to his agent if the latter knows or has reason to know the facts. In cases of special sales made at public auctions, the restrictions of this regulation are applicable both to the auctioneer and to his principal.

Restricted Special Sales

(g) *Materials or products on List A.* A special sale of a material or product on List A attached to this regulation, other than a sale for export, may be made only under the conditions described in the list.

(h) *Materials or products on List B (export).* A special sale of a material or product on List B to a foreign purchaser or to a domestic purchaser who is buying for export or for resale to a foreign purchaser may be made only under the conditions described in the list. Used materials or used products, however, may be sold freely for export unless a notation on List B indicates a restriction on the sale in their used condition. Also, if an exporter is unable to export material purchased for export, he may make a special sale of it in the domestic market under the rules of this regulation. Nothing in this regulation relieves any exporter from complying with all applicable regulations of the Foreign Economic Administration or other Government agencies who may have jurisdiction over exports.

(i) *Sales as scrap of materials or products other than plant-generated scrap.*

(1) Any material or product (other than those listed below and plant-generated scrap) may be sold as scrap in a special sale if it is obsolete, unusable or not readily-salable and will be used or consumed principally as scrap although some part of it may possibly be salvaged by the scrap buyer. A person may make such a special sale as scrap without stripping, disassembling or breaking up the material or product before sale. The sale may be made either to any consumer of scrap to be used only as scrap, or to any person regularly engaged in the collection, disassembling, sorting, and disposal of that kind of scrap material, primarily for remelt or other scrap use. Subsequent sales of any salvaged materials or products by such a scrap dealer are not covered by this regulation, but are subject to any CPA orders or regulations which apply to the distribution of

the particular material or product. The above does not apply to the following:

Used tin cans sold as scrap are governed by Order M-325.

(2) If the buyer by contract, warranty or otherwise has stated that the particular material or product being sold as scrap will be used or disposed of as scrap, this regulation does not relieve the buyer from compliance with that condition.

(3) The sale at low prices, even as low as scrap prices, of prime or off-grade materials or products for use or resale "as is" does not constitute a sale as scrap and such sales may not be made under this paragraph. Instead such a sale is subject to all the other rules of this regulation which apply to special sales of the particular materials or products.

(4) This paragraph permits special sales as scrap only for use or resale within the 48 States and the District of Columbia.

Provisions Relating to Buyers

(j) *Provisions relating to buyers—(1) Use and quantity restrictions still apply.* The buyer at a special sale may not violate any CPA order or regulation controlling the amount of any material or product he may make or the use or disposition that he may make of it. He must also comply with any applicable order which limits the amount of any material or product he may buy (in terms of a specified quantity or quota, as distinguished from a provision requiring CPA permission for all purchases. The latter type of provision does not apply when a special sale is made unless required by this regulation). All the prohibitions in CPA orders or regulations against the use of materials or products for particular purposes remain in effect, and even though a special sale may not be restricted by this regulation, the buyer may have to get permission to use under the applicable order.

(2) *Inventories.* A person buying for use may accept delivery of any item of a material or product bought on a special sale under this regulation if his total inventory of that item is or will be virtue of accepting such delivery be not in excess of his succeeding six months' requirements. This permits a person to exceed applicable inventory limits only if he acquires the excess under this regulation. However, if thereafter he places orders for deliveries of the particular item from producers or distributors, he may not receive such further deliveries until his inventory is reduced to a practicable minimum working inventory or other applicable limit, and such orders may not call for delivery before that time. This paragraph does not apply to persons buying for resale. It also does not permit a person to stockpile in anticipation of starting or resuming civilian production except as permitted by other applicable regulations or orders. However, if any applicable CPA order or regulation permits a larger inventory than six months, this paragraph does not restrict receipts below the larger amount.

(3) *Persons buying for resale.* If a person at a special sale buys a material or product for resale, he may not resell

in violation of any CPA regulation or order which applies to persons engaged in the business of selling the particular material or product. Even if the buyer for resale has not previously sold the material or product as part of his regular business, he is subject to the same restrictions in reselling as a regular wholesaler, retailer or other distributor of it under all applicable CPA regulations and orders, unless the particular regulation or order specifically states otherwise. For example, if an order requires specific CPA permission before a regular distributor of a product can sell it, any person who buys it at a special sale for resale must do what the order says.

(4) *Reports.* If any order or regulation provides that a buyer of a material or product must make any report or furnish any information either to the Civilian Production Administration or to the seller, this regulation does not excuse him from these requirements.

Miscellaneous Provisions

(k) *Records.* Any person making a sale under this regulation must keep sufficient records so that he can show that the sale was permitted under this regulation.

(l) *Revisions of Lists A and B.* Lists A and B attached to this regulation will be revised from time to time. A person wishing to sell a material or product under this regulation should be sure that he has the lists which are in effect at the time of the sale. Copies may be obtained from any field office of the CPA.

(m) *Letters and questions.* Any letters or questions about this regulation should be sent to the Civilian Production Administration in Washington 25, D. C., marked "Ref: P.R. 13".

Issued this 17th day of January 1946.

CIVILIAN PRODUCTION ADMINISTRATION,

By J. JOSEPH WHELAN,

Recording Secretary.

LIST A—RESTRICTIONS ON SPECIAL SALES (DOMESTIC)

A. *General rules.* Special sales in the domestic market of materials or products in Column 1 of List A below are restricted to certain classes of buyers as indicated below in section B, and in accordance with any special rules for a particular material or product as shown on the list. The listings show in some instances the class or group of materials and do not always list all the trade names and related materials. Exceptions to the restrictions are indicated below in section C. Special sales of materials or products not listed may be made freely, but all special sales are subject to the general rules in paragraphs (d), (e) and (f) of the regulation.

B. *Classes of buyers.* Special sales of materials or products on this List A may be made to the following classes of buyers:

(1) To a producer of the same kind of material or product.

(2) To a reprocessor, unless a note in Column 4 of the list indicates to the contrary with respect to a particular material or product. A reprocessor means any person who remakes, repairs or reworks new, rejected or second-grade materials or products of the kind being sold.

(3) To a regular dealer, unless Column 3 or a note in Column 4 of the list indicates to the contrary with respect to a particular material or product. A dealer means any wholesaler or retailer regularly dealing in the

materials or products of the kind being sold, and reselling them from stock or inventory to industrial users or to other persons. It also includes persons who recondition or rebuild equipment and machinery of the kind being sold for resale to industrial users. Such persons are not, however, relieved from compliance with any CPA orders or regulations which control the distribution of the material by them.

If this List A shows no restrictions on the special sale of a material or product to a regular dealer, the seller may sell it to any person for resale who gives him the following certification, provided the seller has no reason to believe that it is false.

The undersigned buyer certifies under Priorities Regulation 13 to the seller and to the CPA that he will in good faith offer for sale the material or product covered by this order in substantially the same time and manner as would a person regularly dealing in it, that he will render substantially the same type of service as would such a person, and that he will comply with all CPA regulations and orders applicable to such a person.

(Signature)

Any person giving such a certification must comply with all applicable CPA regulations and orders as he has certified he will. The standard certification provided in Priorities Regulation 7 may not be used in place of this certification.

(4) To persons buying for use subject to the restrictions indicated in Columns 2 and 4 of the list.

C. *Exceptions from the restrictions on the list.* Even if this List A shows a restriction on the special sale of a particular material or product, the sale may still be made if one or more of the following conditions apply:

(1) *Special permission.* If the list requires special authorization from the CPA in order for a sale of a particular material or product to be made, or if other conditions imposed by the list cannot be met, the seller may apply on Form WPB-1161 for special permission to sell unless the list states that

some other form must be used. If Form WPB-1161 is applicable, and permission is given, it may be restricted to a specific buyer or class of buyers, or may permit the sale to any buyer for resale who gives the certification described in section B (3) above relating to dealers.

(2) *Used materials or products.* If the material or product is used, it may be sold freely to anyone unless a notation on List A indicates a restriction on its sale.

(3) *Small quantity exemption.* A special sale may be made freely if all the material or product of the same kind or type that the seller has at any one plant, operating unit or location did not cost him more than \$100. In the case of any materials or products involved in a Government contract termination, this exemption applies if there is no more than \$100 worth of the material or product in the termination inventory at any one location. Similarly, \$100 worth (at cost) of any material or product may be sold at any single public auction, regardless of the amount of the material or product the seller has. Also, for the purpose of determining whether a particular lot of material or product is suitable for the prospective customer's use, a person may make a special sale of a sample lot, provided the amount involved (at cost to the seller) of any such sample does not exceed \$20.

(4) *Special orders.* If the Civilian Production Administration by an order or in any other way has ruled that all persons engaged in a particular business may sell or exchange the materials or products between themselves, they may do so.

(5) *Disposal of contract termination inventories.* For the purpose of making a settlement of a Government contract, surplus materials or products on List A may be transferred freely from any subcontractor or prime contractor to a procuring agency or disposal agency of the Government, providing the procuring agency has so directed. However, if any material or product is later withdrawn from the contract settlement, its disposition is controlled by this List A.

(6) *Sales to Government stockpiling agencies.* A person may sell surplus materials or products on List A freely to one of the following Government Corporations or to anyone

buying as agent for one of them: Commodity Credit Corporation, Defense Supplies Corporation, Metals Reserve or Rubber Reserve Company.

(7) *Transfers of surplus Government-owned materials or products.* Transfers by Government agencies of surplus materials or products, or of idle or excess materials or products not acquired for sale or resale, may be made freely to a Government Disposal Agency acting as such and may be made freely between and within the War Department, Navy Department, Maritime Commission, War Shipping Administration, Veterans' Administration, and the Defense Plant Corporation, and from the Government Disposal Agencies to any of the above.

D. *Buyers obligations.* No matter who the buyer is or how the sale is made or authorized, the buyer is always subject to the conditions and other provisions stated in paragraph (j) of the regulation.

LIST A—RESTRICTIONS ON SPECIAL SALES (DOMESTIC)

EXPLANATION OF TERMS USED

"WPB-1161" (or other designated Civilian Production Administration form number) means that the seller may not sell to the class of buyer listed at the head of the column without special Civilian Production Administration permission pursuant to application on the form specified. A note in the Remarks Column may show limited exceptions to this requirement. Section C (1) in the introduction to this list tells how to get permission.

"PR-CC" means that the seller may sell only to a person in the particular class of buyer who gives him a CC or higher preference rating. These ratings cannot be used further by the seller, as explained in paragraph (d) (3) of the regulation. This regulation does not in any way assign preference ratings.

"WOP" means that the seller can sell to the class of buyer listed at the head of the column without any preference rating, allocation, or other special permission being necessary.

Provisions in the Remarks Column applicable to the particular material or product must be complied with.

DIRECTION 3

Government agencies and state or local governments are entitled to certain priorities in getting surplus property from government disposal agencies under the Surplus Property Act of 1944 and Surplus Property Board Regulation 2. Although, under paragraph (d) (2) of Priorities Regulation 13, CPA preference ratings no longer have any effect on disposals of surplus property, disposals under SPB Regulation 2 are still subject to any individual directives which the CPA may issue with respect to delivery of specified surplus property to a named buyer or class of buyers. Such directives will be issued only where a particular material or product is urgently needed, and is not readily obtainable from new production because of generally short supply. Disposal agencies must also comply with the restrictions on special sales of the materials and products on Lists A and B of Priorities Regulation 13. (Issued Oct. 1, 1945.)

DIRECTION 4

INVENTORY EXEMPTION FOR SURPLUS AIRCRAFT MATERIALS FOR USE IN MANUFACTURE OF CIVILIAN AIRCRAFT

(a) *What this direction does.* The reduction in military aircraft programs has resulted in large surpluses of aircraft quality materials and components far exceeding foreseeable commercial requirements for civilian aircraft. In order to encourage the disposal of these materials for use in the manufacture of civilian aircraft, this direction permits such manufacturers to receive them on special sales without regard to inventory restrictions.

(b) *Inventory exception.* The inventory restrictions of paragraph (j) (2) of Priorities Regulation 13 and other CPA inventory restrictions on receipts do not apply to delivery and acceptance of idle, excess or surplus materials or components received by a civilian aircraft manufacturer or aircraft sub-assem-

bly manufacturer, provided all the following conditions are complied with:

(1) The materials must be received from aircraft or aircraft sub-assembly contractors or from Government owning or disposal agencies; and

(2) They must be received pursuant to a special sale under Priorities Regulation 13; and

(3) They must be acquired for use in the manufacture of civilian aircraft and components and not for sale or resale.

(c) *Further deliveries.* A person who receives materials or components under this direction may not thereafter receive further deliveries of the particular item from producers or distributors of it until his inventory of it is reduced to a practicable minimum working inventory or other applicable limitation, and his orders may not call for delivery before that time. (Issued Aug. 29, 1945.)

[Conservation Order M-310, as Amended Jan. 17, 1946]

PART 3290—TEXTILE, CLOTHING AND LEATHER

HIDES, SKINS AND LEATHER

(b) *Provisions applying to all hides, skins and leather.* (1) No person shall process any hides, skins or leather contrary to any specific direction issued from time to time by the Civilian Production Administration relating to the processing or production of specific types of leather to meet military or designated civilian requirements.

(2) No producer, collector, tanner, contractor, converter or cutter shall sell, deliver, accept delivery of, cut, use or incorporate in any product any hides skins or leather contrary to any specific direction issued from time to time by the Civilian Production Administration deemed necessary in order to fill military or designated civilian requirements.

(3) Notwithstanding the provisions of any regulation or order of the Civilian Production Administration, no preference rating shall be applied or extended for the delivery of hides, skins or leather, except:

(i) Leather for military orders (excluding sole leather whole stock and cattlehide splits in the blue, pickled, or lime state); or

(ii) When specifically authorized in writing by the Civilian Production Administration pursuant to this subparagraph (b) (3) (ii).

(4) No tanner, contractor, converter, finisher, jobber or cutter shall deliver any leather (except shearings) for footwear purposes, unless he has received the footwear manufacturers' quota number of the purchaser. This paragraph shall not prevent deliveries to persons regularly in business as leather contractors, leather converters, leather finishers, leather jobbers, leather cutters, finders or shoe repairers or to persons outside the continental United States.

(c) *Untanned cattlehides, calfskins and kips*—(1) *Definition.* "Cattlehide", "calfskin" and "kip" mean the hide or skin of a bull, steer, cow or buffalo, foreign or domestic (excluding slunks).

(2) No producer or collector shall put into process or cause to be put into process any untanned cattlehide, calfskin or kip, or portion thereof, other than splits and gluestock, except to the extent specifically authorized in writing by the Civilian Production Administration. Applications for such authorization may be made by letter setting forth the quantity of each kind of cattlehide, calfskin or kip, or portion thereof, which the applicant desires to put into process or cause to be put into process.

(3) No person shall sell, deliver, purchase or accept delivery of any untanned cattlehide, calfskin or kip, or portion thereof, other than splits and glue stock, except to the extent that the purchaser

is specifically authorized by the Civilian Production Administration on Form WPB or CPA-1323 or Form WPB or CPA-3507. Applications may be made on Form WPB or CPA-1325 for the purchase of domestic cattlehides, and on Form WPB or CPA-1322 for the purchase of domestic calfskins and kips: *Provided*, That the following may be made without such authorization:

(i) Transactions between collectors and between producers and collectors for purposes of resale or delivery within the continental United States.

(ii) The sale and delivery to and the purchase and acceptance of delivery by any person other than a tanner of less than 500 hides or skins in any calendar month.

(4) In acting under paragraph (c) (3), it will be the policy of the Civilian Production Administration, so far as is practicable, to grant authorizations so that contractors or tanners will obtain cattlehides, calfskins or kips in the proportions that their respective wettings of such skins computed separately during the calendar year 1942, bore to all wettings thereof during that year by all contractors and tanners producing the same type of leather, except that authorizations to tanners or contractors having more than a practicable minimum working inventory may be reduced or omitted. Persons who were not engaged in business as tanners or contractors during the year 1942, and who desire to obtain cattlehides, calfskins or kips, may apply for authorizations to do so as described in paragraph (c) (3) and their applications will be processed on an equitable basis.

(5) [Deleted Aug. 27, 1945.]

(6) [Deleted Jan. 24, 1944.]

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

Chapter XI—Office of Price Administration

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[RMFR 136, Amdt. 26]

MACHINES, PARTS AND INDUSTRIAL EQUIPMENT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 19 (k) of Revised Maximum Price Regulation 136 is amended to read as follows:

(k) *Construction and road maintenance machinery and equipment.* (1) Until, but not after, May 15, 1946, the manufacturer of any item listed in subparagraph (3) of this paragraph is authorized to increase by not more than 5% the base date maximum price which he had in effect for the sale of such item, or any repair and replacement part therefor, to any class of his purchasers. A manufacturer who proposes to increase any maximum price pursuant to this authorization shall forthwith file with the Machinery Branch, Office of Price Administration, Washington 25, D. C., a report setting forth the prices established pursuant hereto, and the date upon which they will become effective. The failure of OPA to disapprove any price so reported shall in no event constitute approval thereof as the applicable maximum price.

(2) *Resellers' maximum prices—*(i) *Non-list-priced items.* Until, but not after, May 15, 1946, and as to any item for which the manufacturer does not have a published list price, the maximum price of any reseller for the sale to any class of his purchasers of an item whose cost has been increased to him pursuant to subparagraph (1) above, shall be the price determined by increasing the maximum price which he had in effect to such purchaser, just prior to the issuance of this authorization, by the same percentage amount by which his invoiced cost of such item was increased.

(ii) *List-priced items.* A reseller who customarily sold on the basis of the manufacturer's list price may continue to sell on the basis of the manufacturer's new list price as adjusted pursuant to this

authorization, subject to the discounts and allowances, and terms or conditions of sale, which such seller had in effect just prior to the issuance of this authorization.

[Region III Order G-60 Under RMPR 122, Correction]

SOLID FUELS IN ELYRIA, OHIO, AREA

Order No. G-60 under Revised Maximum Price Regulation No. 122, an order establishing maximum prices for the retail sale of solid fuels in the Elyria, Ohio, area, was issued on November 20, 1945. By error the order was made effective on the same date. In issuing area solid fuels orders, it has been customary to make the orders effective a short period of time after the date of issuance to allow sufficient time for distribution of the order and to give the dealers an opportunity to establish correct prices. In order to correct the error made and thereby accomplish the foregoing purposes, it is concluded that the subject order should be corrected by changing the effective date of the same to December 15, 1945.

Accordingly, It is ordered, That the effective date of Order No. G-60 under Revised Maximum Price Regulation No. 122 be corrected to read December 15, 1945.

This correction shall become effective December 14, 1945.

Issued December 14, 1945.

Acting Regional Administrator.
